

JULY 21-25, 2025

Critical Quantitative Methods Work Week

With an aim of advancing the field of Critical Quantitative Methods, the Work Week is a virtual and *free* webinar open to faculty, students, and practitioners.

The open webinar will guide presentations and discussions that explores three major themes:

Pedagogy

Critical approaches to teaching quantitative methods

Theory

Philosophical and theoretical underpinnings of inquiry within critical frameworks

Practice

Applications of critical quantitative methods in diverse, real-world challenges
