Work Week Proposal Submission Form Questions

Not sure what is required to submit a Work Week proposal? Use the proposal form questions below to assist in your proposal preparation. Return to the [Proposal Submission Link](#) to submit your completed application.

Introduction

Thank you for proposing a talk for the Critical Quantitative Methods Work Week, scheduled July 20-24, 2026. Please answer each of the prompts below.

Presentation Type

What type of presentation are you proposing? Note: Each presentation type is 60 minutes long.

Individual Presentation

Symposium Presentation

Individual Presentation

1. First Name
2. Last Name
3. Professional Affiliation
4. Email address
5. Country

Positionality Statement

In 3-5 sentences, briefly describe your worldview and how it influences your research

Criticality Statement

In 3-5 sentences, briefly describe how your general research (not this presentation specifically) is situated within critical theory

Work Week Proposal Submission Form Questions

Title

What is the title of your individual presentation?

Three Themes

Which of the three themes for the Work Week does your individual presentation best align with?

Pedagogy: Research about the strategies of teaching and learning Critical Quantitative methods

Theory: Research that investigates the concepts, principles, and frameworks within Critical Quantitative methods

Practice: Research that applies Critical Quantitative methods in real-world settings

Presentation Status

What is the status of your work?

Ideation

In-Progress

Completed

Abstract

Please provide an abstract (600 words maximum) on your talk, including the following:

1. Background (literature or theory review)
2. Purpose of the study (problem statement, research questions)
3. Methods (sample, data collection, data analysis)
4. Discussion (limitations and significance)
5. Implications for pedagogy, theory, or practice

Word limit does *not* include reference lists, tables, or figures.

Advancing Critical Quantitative Methods

How does this presentation contribute to the advancement of Critical Quantitative methods? Limit to 75 words.

Website

If you would like, please provide a link to a website that showcases your Critical Quantitative work. Examples could be your personal website, an in-progress project, or a published paper.

Symposium Presentation

1. What is the first name of the coordinating presenter?
2. What is the last name of the coordinating presenter?
3. What is the affiliation of the coordinating presenter?
4. What is the email address of the coordinating presenter?
5. What is the country of residence of the coordinating presenter?
6. Please give the names, affiliations, and country of residence for all other presenters in the symposium. Separate each presenter via a semicolon (;) or enter each presenter on a separate line.

Positionality Statement

In 3-5 sentences, briefly describe your worldview and how it influences your research

Criticality Statement

In 3-5 sentences, briefly describe how your general research (not this presentation specifically) is situated within critical theory.

Titles

Below, note the title of the symposium, as well as the titles for each presentation.

Three Themes

Which of the three themes for the Work Week does your individual presentation best align with?

Pedagogy: Research about the strategies of teaching and learning Critical Quantitative methods

Theory: Research that investigates the concepts, principles, and frameworks within Critical Quantitative methods

Practice: Research that applies Critical Quantitative methods in real-world settings

Presentation Status

How far along are the symposium's presentations, on average?

Work Week Proposal Submission Form Questions

Most are in the ideation stage as of submitting this proposal

Most are in-progress as of submitting this proposal

Most have been completed as of submitting this proposal

Abstract

Please provide an abstract (600 words maximum) on your talk, including the following:

1. Background (literature or theory review)
2. Purpose of the study (problem statement, research questions)
3. Methods (sample, data collection, data analysis)
4. Discussion (limitations and significance)
5. Implications for pedagogy, theory, or practice

Word limit does not include reference lists, tables, or figures.

Advancing Critical Quantitative Methods

How does this presentation contribute to the advancement of Critical Quantitative methods? Limit to 75 words.

Website

If you would like, please provide a link (at most 1 per presenter) to a website that showcases each presenter's work in Critical Quantitative methods. Examples could be your personal website, an in-progress project, or a published paper.
